

DOING RIGHT Across the Agency

NASA employees were caught demonstrating safety procedures, reinforcing the proper use of safety equipment and encouraging others to practice safe behaviors. See someone using good safety measures? **Snap a photo and submit it to the Safety Culture webpage!** sma.nasa.gov/CDR.

CAUGHT

REC ●

AMES RESEARCH CENTER:

Wai-Kwong Kan, James Beahn, Caroline Gerughty and Melanie Smith participate in a demonstration of patient care techniques.

ARMSTRONG FLIGHT RESEARCH CENTER:

Members of several organizations work in a coordinated effort to complete placement of the Triplex satellite after routine multi-year maintenance.

GLENN RESEARCH CENTER:

Center safety and health staff collaborate with local fire departments to perform a confined space rescue training exercise.

GODDARD SPACE FLIGHT CENTER:

Kurt Whipps assembles a pressure relief valve while wearing his gloves, eye protection and work boots.

NASA HEADQUARTERS:

Monica Edwards, a medical administrative assistant, participates in the Stop the Bleed event hosted by the Headquarters Occupational Safety and Health program.

KATHERINE JOHNSON INDEPENDENT VERIFICATION AND VALIDATION FACILITY:

Joe Irons, an operations and maintenance technician, sets up a safety barrier, installs safety signs, provides Personal Protective Equipment and provides safety training to employees prior to entering a construction zone.

THE JET PROPULSION LABORATORY:

Jacki Plicher, a fall protection competent person, provides supplementary hands-on instruction for a new fall protection system.

JOHNSON SPACE CENTER:

As employees return on site, Calycia Franklin and Kimberly Schuchard safely walk bicycles through the crosswalk.

KENNEDY SPACE CENTER:

A volunteer directs Artemis I launch viewing traffic while wearing a high-visibility vest.

LANGLEY RESEARCH CENTER:

Christina Withrow, a radiation safety officer, performs a radio frequency survey.

MARSHALL SPACE FLIGHT CENTER:

Amanda Dobbs observes a cigarette disposal canister on fire and calls Protective Services to distinguish it. She prevents a serious incident from happening.

THE MICHOU D ASSEMBLY FACILITY:

Upgrades to numerous exterior entryways include new overhangs, new doors, and improved in and out transitions to mitigate rain intrusion.

STENNIS SPACE CENTER:

Center fire and engineering department personnel participate in a stair chair evacuation drill.

WALLOPS FLIGHT FACILITY:

Ground support personnel and aircrew conduct an aircraft runup while wearing proper Personal Protective Equipment.

WHITE SANDS TEST FACILITY:

Ray Murdock and Christopher Rodriguez, propulsion mechanical technicians, perform a task in total encapsulating suits to protect themselves from potential hazards.
